INSTRUCTIONS FOR ASSEMBLY AND USE OF SPORTS EQUIPMENT

Product: **Universal basketball board, mounted to the frame**

Code: 10 012, 10 013

The basketball board meets the requirements of the PN-EN 1270 standard: "Playing Field Equipment - Basketball Equipment. Functional And Safety Requirements, Test Methods".

1. Components

Number	Part/subassembly name	Quantity per product
1	Epoxy basketball board	1
2	Board frame	1

2. Assembly of the basketball board

- The assembly of the board must be performed on a correctly mounted basketball board.
- The board with frame is fixed directly to the structure:
 - a) 105x180 cm using four M10 screws screwing into the threads in the frame of the board, spacing 600x1200 mm.
 - b) 90x120 cm using four M10 screws screwing into the threads in the frame of the board, spacing 600x1120 mm.

Note: for the mounting of the board it is recommended to use M10 screws of length adapted to the board's structure and having the hardness class min. 8.8

3. Use of whiteboards

- a) The basketball board is designed for installation in sports halls and outdoor facilities.
- b) Periodically check the fastening elements of the board and the condition of the board material
- c) Do not subject the boards to mechanical damage [cutting, notching, burning, etc.].
- d) After finding some cracks, stop using the board and immediately contact the manufacturer.
