

PROFESSIONAL ALUMINIUM HANDBALL GOALS IHF, EHF CERTIFICATE

Art. no. 13 000

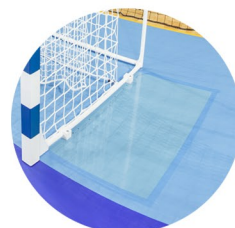

Goal frame made of 80 x 80 mm aluminium profiles, reinforced with ribs. Goal depth (top/bottom) 140/140 cm or 100/130cm. Foldable arches for easy transport and storage. Corners made of reinforced steel sheet with a special structure which makes the goal more stable. Additional reinforcing crossbar in the top section of the arches. Net fixed with flexible cord to provide it with greater durability. Goals are mounted to the special steel sheets, thanks to which goals can be placed anywhere.

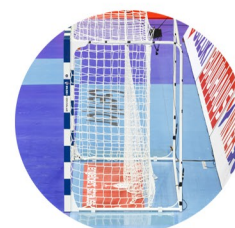

Corners made of reinforced steel sheet with a special structure which makes the goal more stable.

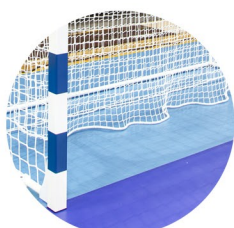

Additional reinforcing crossbar in the top section of the arches, provides greater stability of the goal.

Goals mounted to special steel sheets placed on the floor, thanks to which goals can be placed anywhere.

Net made from polypropylene, strand thickness 4,0 mm. Mesh 10x10 cm. Net depth: top 100 cm, bottom 100 cm. Colour: white.

Barrier netting made from polypropylene, strand thickness 4 mm. Mesh 4,5x4,5 cm. By using a net with a smaller mesh, the ball does not cause barrier net tangling.

Net fixed with flexible cord to provide it with greater durability.
